

### BREAKOUT SESSION #2

### “WORKSHOPPING THE RESEARCH APPROACH, DATA ANALYSIS PLAN, AND FIGURES”

**45 MINUTES TOTAL**

*(Considerations: 1-on-1 consultations based on Stations)*

**OBJECTIVE:** Get individual feedback on the participant’s research plans on formatting, biostatistical support and community engagement.

**PREMISE:** Moderators will be sitting in on three work stations to provide 15 minute consultations on each of the participant’s needs including general formatting and structure of the research approach, questions on IRB, human subject enrollment and inclusion/exclusion criteria, formatting of preliminary data figures and presentation, collaborations/teams and on community engagement. Please follow the guidelines regarding best practices on developing a research plan (presentation by Dr. Dagda). Participants will receive feedback from the Moderators (MW CTR-IN Leadership) for all three aforementioned topics.

**INSTRUCTIONS:**

1. Participants will have the opportunity to visit three workstations for 15 minutes based on their group assignments for two rounds. Each group will have the opportunity to get consultation on general formatting of the research approach and human subject/IRB compliance (workstation #1), biostatistical support (workstation #2) and on community engagement (workstation #3).
2. GWW participants will be switched to workstation based on their group after the first 15 minutes. In addition to getting consultation on their research approach, the moderators will make sure that the research plan aligns with the participant’s SA pages.
3. All participants will then break away and talk about their experience and provide feedback. Participants will use the combined feedback to improve the SA page after the GWW and make sure it aligns with the research plan.

<b>ASSIGNMENTS (3 rounds)</b>			
<b>PARTICIPANTS</b>	<b>WORKSTATIONS</b>	<b>DIRECTIONS</b>	<b>TOTAL TIME LIMIT</b>
<p><b>GROUP 1</b> Mina Attin, PhD Ezra Holston, PhD, MSN, BA MD Fitrat Hossain, PhD</p>	<p><b>GENERAL RESEARCH APPROACH, PRELIMINARY DATA, FIGURES, HUMAN SUBJECT TABLES</b> <b>[Station #1]</b>  Akshay Sood, MD, MPH Ruben Dagda, PhD Larissa Myaskovsky, PhD</p>	<p>1.) Review on formatting of approach and on human subject enrollment / compliance (15 minutes)- GROUP 1 first, followed by GROUP 2, and then GROUP 3</p>	<p>3:15 pm – 4:00 pm <i>(45 Minutes)</i></p>
<p><b>GROUP 2</b> Nirmala Lekhak, PhD Clariana Ramos de Oliveira, PhD, MSc, RN Shengjie Zhai, PhD Kristin Van De Griend, PhD, MPH</p>	<p><b>BIostatISTICS SUPPORT</b> <b>[Station #2]</b>  Lauren Lessard, PhD, MPH Juli Petereit, PhD</p>	<p>2.) Provide feedback for Biostatistics (15 minutes): GROUP 2, followed by GROUP 1 and then GROUP 3</p>	
<p><b>GROUP 3</b> Yuri Yoshida, PT, PhD Xiang Xue, PhD Craig Ulrich, PhD</p>	<p><b>COMMUNITY ENGAGEMENT &amp; OUTREACH</b> <b>[Station #3]</b>  Tony Ward, PhD Weiyu Mao, PhD, MSW, MPhil</p>	<p>3) Obtaining support on community engagement: GROUP 3, followed by GROUP 2 and then GROUP 1</p>
